

EXHIBIT C

Infringement of U.S. Patent No. 8,378,875 via UEI Accused Products

As used in this claim chart, “UEI Accused Products” include without limitation the products and models identified in the Complaint as infringing U.S. Patent No. 8,378,875, as well as any other product that operates in a manner reasonably similar to the specific theory of infringement identified in the claim chart below.

Roku, Inc. (“Roku”) contends that UEI (as defined in the Complaint) directly infringes the method claims listed below when UEI or those acting on UEI’s behalf, such as employees, officers, directors, principals, agents, consultants, and/or representatives use, test or demonstrate the UEI Accused Products in the United States.

Roku contends that UEI directly infringes the asserted product claims by making, using, offering to sell, or selling within the United States or importing into the United States the UEI Accused Products.

Further, Roku contends that UEI’s customers and/or end users directly infringe the method and product claims listed below by making, using, offering to sell, or selling within the United States or importing into the United States the UEI Accused Products, and UEI therefore indirectly infringes by way of inducement and/or contributory infringement.

Roku contends that each of the following limitations is met literally, and, to the extent a limitation is not met literally, it is met under the doctrine of equivalents.

This claim chart is based on the information currently available to Roku and is intended to be exemplary in nature. The information cited herein related to the UEI URC 7935 is representative in all material aspects for other UEI Accused Products with respect to any of the charted claims that are asserted against any of the other UEI Accused Products. Based on information presently available to Roku, each of the UEI Accused Products is understood to operate in the same manner with respect to the contentions provided in this chart for each asserted claim. Roku reserves all rights to update and elaborate its infringement positions, including as Roku obtains additional information during the course of discovery.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
