FACTUAL BACKGROUND

- 10. Maffick is a social media company that focuses on social media optimization and brand development. It operates three social media channels on Facebook and Instagram. Maffick also offers e-commerce merchandise for sale over its social media pages. Its revenue is derived from monetization of media content, advertising for branded content that is promoted on its social media channels, and the re-sale of original content that is created for its channels.
- 11. Maffick's channel "In the Now" is directed toward a community of mindful media consumers and is centered around important, curious and purpose-driven content. It tells stories about social justice, everyday heroism, acts of kindness and doing good where it matters most. Examples of recent stories include a delivery man who received a surprise gift from a customer, a man whose family was killed in a plane crash, and lessons we can learn from indigenous people about connectedness.
- 12. Maffick's channel "Waste-Ed" focuses on environmental issues and sustainability, both in the content it delivers, and the companies and brands promoted on the channel. Examples of recent stories include an eleven-year-old who recycled nearly one million cans, a trach picking action figure, and the relocation of a one-hundred-year-old tree. Maffick also promotes the sale of environmentally conscious products.
- 13. Maffick's channel "Soapbox" delivers political opinion and seeks to expose hypocrisy across the political spectrum. Examples of recent stories include an Iraq War veteran relating his experiences, a video of Nelson Mandela responding to a reporter who was critical of him, and a finding that prison sentences are 20% longer for black men than for white men for similar crimes.
- 14. Maffick's channels are intentionally non-partisan and Maffick does not seek to represent any one point of view. Its mission statement makes clear that there are more than two sides to every story and it actively seeks to produce content that rises above any one perspective to tell stories in a neutral manner that encourages its audience to form their own opinions. determines what content to post based on analytical data from CrownTangle and Tubular Labs concerning audience preferences.

- 15. On May 18, 2020, Facebook contacted Maffick and threatened to shut down all of its social media pages by May 22, 2020, unless Maffick posted a disclosure on all of its accounts stating that Maffick was "a brand of Maffick Media, which is owned and operated by Ruptly GmbH, a subsidiary of RT news."
- 16. Maffick is not owned or operated by Ruptly GmbH ("Ruptly") and is not a brand of Maffick Media GmbH ("Maffick Media"). Maffick is owned and operated by Anissa Naouai.
- 17. Ruptly is a part-owner of the inactive German entity, Maffick Media, in which Ms. Naouai owned a 49% interest. Maffick Media no longer does business of any kind.
- 18. In July 2019, Ms. Naouai formed an entirely new entity known as Maffick LLC, a Delaware company in which neither Maffick Media nor Ruptly has any involvement. While Ms. Naouai chose to continuing using the "Maffick" name for the new LLC, the company is not related to or associated with Maffick Media (or Ruptly). The social media pages at issue were created by Ms. Naouai, are owned by Maffick LLC, and have been continually operated and controlled by her. She has and always has had final editorial control over what she and the staff at Maffick post on those pages.
- 19. On May 19, 2020, Maffick responded to Facebook, indicating that its pages were actually owned by Maffick LLC, an independent company owned and operated by a United States citizen, and that complying with Facebook's demand that it disclose publicly that it was "owned and operated by Ruptly GmbH, a subsidiary of RT news" would require Maffick to post inaccurate information. Facebook did not respond.
- 20. Maffick reached out to Facebook again on May 20, 21 and 22 seeking to resolve the situation without being required to post misinformation, but Facebook did not respond to any of those communications either.
- 21. On May 22, 2020, Maffick was concerned that Facebook would follow through on its threat to shut down its pages completely, so as a temporary, stop-gap measure, Maffick posted the phrase "Affiliated with RT" in the "About section of Soapbox's Facebook and Instagram

1	accounts, because Soapbox is a channel that posts what can be considered political content.	
2	Maffick's intention was to compromise, keep its Facebook pages operating, and engage in further	
3	dialogue with Facebook, so that it would not be required to post further inaccurate information on	
4	any of its pages. Maffick reached out again to Facebook and again received no response.	
5	22. On June 4, 2020, Facebook publicly announced its plan "to label media outlets	
6	that are wholly or partially under the editorial control of their government," and indicated that,	
7	"today we're starting to apply labels to those state-controlled media outlets." Facebook explained	
8	that it would label state-controlled media entities in order "to provide an extra layer of protection	
9	against various types of foreign influence in the public debate ahead of the November 2020	
0	election in the US."	
1	23. According to Facebook, its "definition of state-controlled media extends beyond	
2	just assessing financial control or ownership and includes an assessment of editorial control exerte	
3	by a government."	
4	24. In determining whether social media pages are under "editorial control by a	
5	foreign government," Facebook indicated it considers the following criteria:	
6	Mission statement, mandate, and/or public reporting on how the organization defines and accomplishes its journalistic mission	
8	Ownership structure such as information on owners, stakeholders, board members, management, government appointees in leadership positions, and	
9	disclosure of direct or indirect ownership by entities or individuals holding elected office	
0.0	Editorial guidelines such as transparency around sources of content and	
21	independence and diversity of sources	
22	Information about newsroom leadership and staff	
23	Sources of funding and revenue	
24	Governance and accountability mechanisms such as correctional policies, procedure for complaints, external assessments and oversight boards	
26	25. On June 5, 2020, without reaching out to Maffick beforehand, Facebook published
