## 1. GENERAL INSTRUCTIONS<sup>1</sup>

### 1.1 INTRODUCTION

Members of the jury, now it is time for me to instruct you about the law that you must follow in deciding this case.

I will start by explaining your duties and the general rules that apply in every civil case. Then I will explain some rules that you must use in evaluating particular testimony and evidence. Then I will explain the positions of the parties and the law you will apply in this case. Finally, I will explain the rules that you must follow during your deliberations in the jury room, and the possible verdicts you may return.

Please listen very carefully to everything I say. In following my instructions you must follow all of them and not single out some and ignore others. They are all important.

You will have a written copy of these instructions with you in the jury room for your reference during your deliberations. You will also have a verdict form, which will list the questions that you must answer to decide this case.

---

<sup>1</sup> The parties reserve their rights to propose further amendments to these proposed jury instructions consistent with legal issues that may arise after the filing of these proposed instructions.
