

Exhibit 2

Sonos – Smart Speakers with Sonos App and Google Assistant
(See product list at end of chart for models)

Infringement of the '867 patent

Claim 1	Evidence
1. A method of using a first electronic device to operate a second electronic device in real time, while the second device is not physically connected to the first device, and is only intermittently local to the first device, comprising:	<p>The Sonos smart speaker and Sonos App perform a method of using a first electronic device to operate a second electronic device in real time, while the second device is not physically connected to the first device, and is only intermittently local to the first device.</p> <p>For example, the Sonos App running on a Google Assistant-enabled device can be used to control a Sonos smart speaker via voice control by a user.</p> <div data-bbox="581 1192 1481 1768"><p>Use the Google Assistant with any device</p><p>Enjoy voice control for Sonos from your phone, a Google Home Mini, or any other smart device with the Google Assistant.</p></div> <p>[2]</p> <p>Several models of Sonos smart speakers can be controlled by voice using a Google Assistant-enabled device (e.g. Android and iOS sm</p>

	<div data-bbox="581 680 1620 919"><h2>Roam</h2><p>The portable smart speaker for all your listening adventures.</p>[1]</div> <div data-bbox="581 928 1620 1205"><h2>Move</h2><p>The durable, battery-powered smart speaker for outdoor and indoor listening.</p>[1]</div> <div data-bbox="581 1213 1620 1478"><h2>One</h2><p>The powerful smart speaker with voice control built in.</p>[1]</div> <div data-bbox="581 1486 1620 1755"><h2>Beam</h2><p>The smart, compact soundbar for TV, music, and more.</p></div>
--	--

Arc

The premium smart soundbar for TV, movies, music, gaming, and more.

Several models (e.g. Beam, Arc, One) have Google Assistant built in, which can be used to control other types of smart devices around the home, such as TVs, smart ovens, etc. [10][11][14][15]

When the Sonos smart speaker is used for voice control of other smart devices, the Sonos smart speaker acts as the first device and the home device acts as the second device.

Voice control

Google Assistant and Amazon Alexa are built right in, so you can play music, check news, set alarms, get your questions answered, and more, completely hands free.

[10]

	<p>More than music</p> <h2>Voice control for TV</h2> <p>Turn on the TV with your voice using the Google Assistant on Sonos Beam. With Chromecast, you can also control apps, such as Netflix, YouTube, and Starz.</p>	[2]
	<p>Connect everything</p> <h2>Smart home control</h2> <p>The Google Assistant works with hundreds of home appliances and other smart devices. Set your Nest thermostat or dim your Philips Hue lights using your voice.</p>	[2]
	<p>Control your smart home</p> <p>"Hey Google, preheat the oven and turn down the thermostat"</p>	<p>Get answers</p> <p>"Hey Google, stop the music and tell me who Ada Lovelace was"</p>

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
