

**PIPELINERS
UNION 798**
UNITED ASSOCIATION

July 5, 2022

Secretary Kimberly Bose
Federal Energy Regulatory Commission
888 First Street, NE
Washington, DC 20426

Re: Docket Nos. CP21-465-000, CP21-465-001, CP21-465-002; Driftwood Line 200 and Line 300
Project Draft Environmental Impact Statement.

Secretary Bose:

Attached please find a comment with 1,918 signatures supporting the Driftwood Line 200 and Line 300 pipeline project as the commission conducts review of its Draft Environmental Impact Statement. I'm submitting this on behalf of Pipeliners Local 798, a trades union that represents thousands of the country's skilled pipefitters, welders and other energy industry craftsmen.

This project represents a key investment in the southeast region's natural gas infrastructure network that will increase access to locally sourced natural gas. This will support efforts to lower carbon emissions, support good jobs for local craftsmen and provide reliable energy to American families and businesses.

Thank you for considering the voices on the following pages as you prepare the final EIS.

Sincerely,

Danny Hendrix
Business Manager
Pipeliners Local 798

Secretary Kimberly Bose
Federal Energy Regulatory Commission
888 First Street, NE
Washington, DC 20426

Re: Docket Nos. CP21-465-000, CP21-465-001, CP21-465-002; Driftwood Line 200 and Line 300
Project Draft Environmental Impact Statement.

Dear Secretary Bose:

I am submitting this comment in support of Tellurian's Driftwood Line 200 and Line 300 project, an investment of more than a billion dollars in the southeast region's natural gas infrastructure network. This dual pipeline project will provide essential increased access to Haynesville sourced natural gas, helping to meet the growing demand for this clean-burning energy source.

In its DEIS, FERC concluded that project impacts would "not be significant" assuming that Driftwood implements its impact avoidance, minimization and mitigation measures and adheres to FERC recommendations. I see no reason why FERC would come to a different conclusion for its final EIS given that Driftwood has a proven track record of building and operating pipelines that prioritize safety for its employees, contractors and surrounding communities. Like all Driftwood projects, the Line 200 and Line 300 project is designed to meet or exceed state and federal safety requirements.

I believe this project should receive necessary permits for the following key reasons:

- FERC concluded in its DEIS that project impacts would "not be significant" given Driftwood's implementation of its impact avoidance, minimization and mitigation measures and adherence to the commission's recommendations;
- Once in operation, the project will increase critical access to locally sourced natural gas, providing reliable energy and supporting efforts to lower carbon emissions;
- It will support approximately 1,500 jobs during construction and several permanent jobs for local craftsmen;
- Construction is expected to generate \$4.9 million in tax revenue, which can be invested in libraries, public parks and other community services.

Due to the reasons discussed above, I urge FERC and other decision makers to issue necessary permits for the Line 200 and Line 300 project without delay so the residents, business owners and workers can enjoy the many associated benefits.

Signed,

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
