

Chad Fenison, Cannon Beach, OR.
My name is Chad Fenison.

I have heard about TC Energy's Gas
Transmission Northwest Xpress (GTNXP) project with Docket No. CP-22-2-000. I'm
writing today to urge
FERC to approve this project.

As the economy recovers from the COVID-19 pandemic, this project will bring jobs
and tangible benefits
to local businesses while ensuring that the energy we need to grow our economy
is delivered safely and
reliably.

Supply chain disruptions and other factors have led to rising costs for food,
gasoline, and appliances
among many other necessities. Approving GTNXP will help to meet the increased
energy demand in the
western US and contribute to stability at an uncertain time for families like
mine.

Please add my comments in support of this project going forward to the official
docket for CP-22-2-000.

Sincerely,
Chad Fenison
