RE: 2017 Dam Safety Surveillance and Monitoring Report

Dear Mr. Gates:

Based on our project review, it was noted that the Dam Safety and Surveillance Monitoring Report (DSSMR) for calendar year 2017 required to be submitted by March 31, 2018 has not been submitted to date for the referenced projects. In accordance with Chapter 14 of the FERC Engineering Guidelines, please submit the 2017 and 2018 DSSMR by March 1, 2019.

Please note that the DSSMR should follow the outline/format contained in Chapter 14 Appendix J & K of the FERC Engineering Guidelines. For your reference a link to this report requirement is provided below.
