2018 Emergency Action Plan**

Dear Plan Holder:

This letter accompanies the issuing of three (3) copies of updated EAP pages for the Pine View Dam Hydroelectric Project Emergency Action Plan (EAP) from Bountiful City Light & Power (BCL&P), licensee of this project.

These changes are dated August 20, 2018; they comply with Federal EAP Guidelines revised by the Interagency Committee on Dam Safety (ICODS). These were published by the Federal Emergency Management Agency (FEMA) and are intended to provide guidance to all dam owners to develop a nationwide standard for EAPs. Also included is an updated flowchart (EAP-1) indicating the responsibility of BCL&P dispatcher to notify involved agencies in case of an occurrence or disaster. Written scripts used for an "actual disaster" and for a "mock disaster" are found on page EAP-9.

The design and operation of the Pine View Dam Power Plant does not substantially increase the possibility of total failure of the Pine View Dam. The probability of a failure of the Pine View Dam is remote. The Emergency Action Plan is not intended to reflect in any way upon the integrity of the Echo Dam or Power Plant. The Emergency Action Plan (EAP) is prepared for the handling of emergencies or unusual occurrences at the Echo Dam Power Plant. In case of an emergency or unusual occurrence of the dam itself, refer to the Echo Dam Preparedness Plan developed by the U.S. Bureau of Reclamation.

To be consistent with the Federal EAP Guidelines and in consultation with Federal, State and local safety and law enforcement agencies, BCL&P is issuing updated pages for the Emergency Action Plans (EAP's) dated August 2018 to all plan holders. Each page that has had a change has a revision date on the bottom left corner of the page. (Pine View EAP - 08-2018 - Refer to EAP- 15)

Please discard older dated pages and replace them with these new updated pages (names and numbers). Please take some time to become familiar with the plan and your responsibilities as a plan holder. Notify the contact person listed below with any corrections or additions so that they may be included in our next revision.
