

UNITED STATES DISTRICT COURT
MIDDLE DISTRICT OF FLORIDA
ORLANDO DIVISION

LIGHTING SCIENCE GROUP
CORPORATION,

Plaintiff,

v.

Case No: 6:16-cv-680-Orl-37GJK

ENERGY EFFICIENT LIGHTING
COMPANY LIMITED,

Defendant.

ORDER

This matter is before the Court on a status review. On April 28, 2016, this Court entered a Related Case Order and Notice of Designation Report (Doc. 6). This Order states that the parties shall conduct a case management conference no later than 45 days after service or appearance of any defendant, and file the Case Management Report within seven (7) days of the meeting regardless of the pendency of any undecided motion. To date, the parties have failed to file a joint Case Management Report as required. Accordingly, it is

ORDERED that the parties are to **SHOW CAUSE** by written response no later than November 10, 2016 why this case should not be dismissed for failure to file a joint Case Management Report.

The Court notes that this is the sixth show cause order for failure to file a joint case management report entered in a Lighting Science case where Mr. Warzecha is representing the Plaintiff. (See 6:16-cv-677 (Doc 33 on July 21, 2016); 6:16-cv-681 (Doc

28 on October 12, 2016; 6:16-cv-1228 (Doc 20 on October 19, 2016; 6:16-cv-1255 (Doc 32) on October 14, 2016; and 6:16-cv-1256 (Doc 29) on October 18, 2016.

The Notice of Designation of Track (Doc 6) is very clear. It states that the parties shall conduct a case management conference no later than 45 days after service or appearance of any defendant. The Case Management Report ("Report") must be filed within seven (7) days of the case management conference. Doing the math, the joint case management report is due 52 days after the earlier of service of process on any defendant; or the appearance of any defendant. Counsel is advised that continued failure to comply with the Court's orders will result in sanctions being imposed.

DONE AND ORDERED at Orlando, Florida this 3rd day of November, 2016.

ROY B. DALTON JR.
United States District Judge
