Having met and conferred, Complainant Knowles Electronics, LLC and Respondents Analog Devices, Inc., Amkor Technology, Inc., and Avnet, Inc., submit this joint motion pursuant to Rule 210.38(c) to correct the hearing transcript.

Rule 210.38(c) states as follows:

(c) *Corrections.* Changes in the official transcript may be made only when they involve errors affecting substance. A motion to correct a transcript shall be addressed to the administrative law judge, who may order that the transcript be changed to reflect such corrections as are warranted, after consideration of any objections that may be made. Such corrections shall be made by the official reporter by furnishing substitute typed pages, under the usual certificate of the reporter, for insertion in the transcript. The original uncorrected pages shall be retained in the files of the Commission.

The official transcript contains several errors affecting the substance of the testimony offered or the contents of the evidentiary record. The parties identify these errors below (with the corrected text underlined):
