ORDER REQUIRING CORRECTION OF PETITION  
*Conduct of the Proceeding*  
37C.F.R. § 42.5

Hangzhou Langhong Technology Co., Ltd. and Langhong Technology USA Inc. (collectively, “Petitioner”) submitted a Petition for *inter partes* review of U.S. Patent No. 8,896,447 (the “Subject Patent”). Records indicate that the Petition was electronically submitted via PRPS on May 22, 2015. Although the Petition was accompanied by eight Exhibits, Petitioner did not include as an exhibit a copy of the Subject Patent. A petition for *inter partes* review must include the exhibit number of the supporting evidence relied upon to support the challenge, including identifying specific portions of the evidence that support the challenge. 37 C.F.R. § 42.104(5). The petition must also identify the challenged claim and state how the challenged claim is to be construed. 37 C.F.R. § 42.104(2),(3). Thus, a copy of the Subject Patent is required for the Petition to receive a filing date.

During a telephone conference with counsel on July 8, 2015, we advised counsel that a corrected Petition with a copy of the Subject Patent should be submitted within five days of this order, or the Petition would be denied a filing date and dismissed.

In consideration of the above, it is

ORDERED that, in order to receive a filing date, Petitioner must submit a corrected Petition including a copy of the Subject Patent as an exhibit within five (5) days of this Order; otherwise, the Petition will be dismissed.
