Gruezi from California dear Christof,

I am sorting out the good and bad pictures I took there from both experiments. I kept them separate, I did not take video but only video-clips less than 15 seconds each. At times your hands got in the way. Will put them in a disk as I promised Ludwig who already sent me a reminder yesterday. I really wanted to talk to you about what I consider your technology and wondered if you had tried to patent it. What happened to your corporation? Are you coming to AATS in Philly? let me know. My cell phone is L 1-949-310-1858. My home phone on my card: 949-643-2218.

Will try to get the pix out by tomorrow or Fri if not today. Regards to all,

Tino

Hi Tino

How are things going at 3F? Unfortunately we did not have time to talk. Let me know when you are back in CH.
Can you send me a CD-ROM copy of the movie you taped in the animal lab and in the OR?
Best
Christoph
