**I. Notice of Request for Relief**

Pursuant to 37 C.F.R. §§ 42.21(a) and 42.100(b), Patent Owner United States Gypsum Company (“USG”) requests that the Board apply a district court-type claim construction approach in this proceeding. Amended Rule 37 C.F.R. § 42.100(b) (effective May 2, 2016) provides in part:

A party may request a district court-type claim construction approach to be applied if a party certifies that the involved patent will expire within 18 months from the entry of the Notice of Filing Date Accorded to Petition. The request, accompanied by a party’s certification, must be made in the form of a motion under § 42.20, within 30 days from the filing of the petition.

The patent subject to this proceeding, U.S. Patent 7,425,236 (’236 patent) was filed on June 11, 2007, and claims priority to Application No. 08/916,058, which was filed on August 21, 1997. (*See Ex. 1029.*) Thus, the ’236 patent will expire 20 years from filing, i.e., no later than August 21, 2017. Accordingly, the ’236 patent will necessarily expire within 18 months from the entry of the Notice of Filing Date Accorded to Petition. *See also* Section II, *infra*.

This motion is made within 30 days from the filing of the Petition. Petitioner filed its Petition for *inter partes* review against the ’236 patent on March 17, 2017. (Paper 1.) This motion is made on April 13, 2017.

In its Petition, Petitioner noted the approaching expiration of the '236 patent and has already applied claim constructions under both the broadest reasonable interpretation standard as well as a district court-type claim construction under *Phillips v. AWH Corp.*, 415 F.3d 1303 (Fed. Cir. 2005). (Paper 1 at 10–16.)

On April 5, 2017, the Board issued its Notice Of Filing Date Accorded to Petition And Time For Filing Patent Owner Preliminary Response, making USG's preliminary response due July 5, 2017. (Paper 3 at 1–2.) USG intends to file a preliminary response in which it will address a district court-type claim construction under *Phillips*.

On April 12, 2017, the Board authorized USG to file this motion under 37 C.F.R. § 42.100(b).

## **II. Certification**

USG hereby certifies, through the undersigned signature of its counsel, that the '236 patent will expire no later than August 21, 2017 (*see* Ex. 1029), which is 20 years from the filing date of the application from which the '236 patent claims priority. 35 U.S.C. § 154. This expiration date is within 18 months from the entry of the Notice of Filing Date Accorded to Petition.

### III. Requested Relief

USG respectfully requests that the Board apply a district court-type claim construction in this proceeding.
