PLAINTIFFS' SUPP. RESPONSES TO INTERROGATORIES NOS. 8, 10, 14

Pursuant to Rules 26 and 33 of the Federal Rules of Civil Procedure, Plaintiffs Boston Scientific Corporation and Boston Scientific Scimed, Inc. (collectively, "Boston Scientific") hereby serves its first supplemental objections and responses to the Interrogatories Nos. 8, 10, and 14 served by Edwards Lifesciences Corporation ("Edwards").

PRELIMINARY STATEMENT

Boston Scientific's investigation, discovery, and analysis are ongoing, and Boston Scientific's response to each of these interrogatories is based on information and documents presently available to Boston Scientific after a reasonable investigation. Boston Scientific reserves the right to supplement or amend these responses in the event that further information and/or documents are disclosed or discovered.

Specific objections to Interrogatories Nos. 8, 10, and 14 are made on an individual basis in the response below. In addition to these specific objections, Boston Scientific makes certain continuing objections ("General Objections") to Edwards's "Definitions" and "General Instructions" for interrogatories. These General Objections are hereby incorporated by reference into the responses made to each separate interrogatory. For particular emphasis, Boston Scientific has, from time to time, expressly included one or more of the General Objections in certain of its responses below. Boston Scientific's response to each individual interrogatory is submitted without prejudice to, and without in any respect waiving, any General Objections not expressly set forth in that specific response. Accordingly, the inclusion of any specific objection in a response to an interrogatory below is neither intended as, nor shall in any way be deemed to be, a waiver of any General Objections or of any other specific objection made herein or that may be asserted at a later date. In addition, the failure to include at this time any continuing or specific objection to an interrogatory is neither intended as, nor shall in any way be deemed to

be, a waiver of Boston Scientific's right to assert that or any other objection at a later date.

No incidental or implied admissions are intended by the responses herein. Any response and/or objections to a particular interrogatory shall not be taken as an admission that Boston Scientific accepts or admits the existence of any "fact" set forth in or assumed by that request.

GENERAL OBJECTIONS

Boston Scientific makes the following General Objections to Edwards's Interrogatories Nos. 8, 10, and 14, including without limitation the instructions and definitions set forth therein, whether or not separately set forth in each response to each individual interrogatory:

- 1. Boston Scientific objects to the interrogatories to the extent they seek information protected by any relevant privilege or legal protection, including, without limitation, the attorney-client privilege, the work product doctrine, the joint defense privilege, the settlement or settlement negotiation privilege, settlement materials, or trial preparation materials. Any statement herein to the effect that Boston Scientific will provide information in response to an interrogatory is limited to information that does not fall within the scope of any relevant privilege.
- 2. Boston Scientific objects to the interrogatories to the extent they are overly broad, unduly burdensome, or seek information that is not relevant to any party's claim or defense or not proportional to the needs of the case.
- 3. Boston Scientific objects to the interrogatories to the extent they are vague, ambiguous, and use unlimited, undefined, subjective, or open-ended terms or phrases.
- 4. Boston Scientific objects to the interrogatories to the extent they seek purely legal conclusions.
- 5. Boston Scientific objects to the interrogatories to the extent that the purported benefit of the discovery sought by the interrogatories is outweighed by the

burden and expense of responding to the interrogatories pursuant to Rule 26(b)(1) and 26(b)(2) of the Federal Rules of Civil Procedure. Boston Scientific objects to the interrogatories to the extent they attempt to impose burdens on Boston Scientific inconsistent with, or in excess of, the requirements of the Federal Rules of Civil Procedure and the Local Rules of the United States District Court for the Central District of California.

- 6. Boston Scientific objects to the interrogatories to the extent they seek confidential, proprietary, trade secret, private or financial information that is protected from disclosure by any applicable trade secret or privacy statute or law. Boston Scientific will provide such information pursuant to an appropriate protective order and, to the extent applicable, with the consent of any third party that may claim confidentiality rights with respect to information responsive to the interrogatory.
- 7. Boston Scientific objects to the interrogatories to the extent they seek information unknown to Boston Scientific, that refers to persons, entities, or events not known to Boston Scientific, or that relates to documents not within Boston Scientific's possession, custody, or control. Such a requirement would exceed Boston Scientific's obligations under the Federal Rules of Civil Procedure and/or the Local Rules of the Central District of California and would subject Boston Scientific to unreasonable and undue oppression, burden, and expense. In responding to these interrogatories, Boston Scientific shall respond only on behalf of itself and shall not undertake the burden and expense of attempting to provide information presently unknown to Boston Scientific or relating to documents outside Boston Scientific's possession, custody, or control.
- 8. Boston Scientific objects to the interrogatories to the extent they fail to specify a relevant time period, or to the extent any part of any specified time period is irrelevant to any claim or defense at issue in this case, on the grounds that the interrogatories are overly broad, unduly burdensome, and seek information that is neither relevant to any party's claims or defenses nor proportional to the needs of the

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time** alerts and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
