Case IPR2017-01471 (Patent 8,412,197 B2)

Case IPR2017-01474 (Patent 8,639,246 B2)

Case IPR2017-01475 (Patent 8,996,003 B2)

1 PROCEEDINGS

2 - - - - -

3 JUDGE JEFFERSON: Good afternoon, be seated. I'll give you a second to
4 start opening. Good afternoon. This is a trial in hearing numbers IPR case
5 2017-01471 for patent number 8,412,197, IPR 2017-01474, for patent
6 number 8,639,246, and IPR 2017-01475 with patent number 8,996,003. The
7 patent owner here is Huawei Technologies, and the petitioner in this case is
8 Samsung Electronics.

9 I'm Judge Jefferson. With me in the room is Judge Wormmeester and
10 remotely is Judge Horvath. At this time, counsel, please introduce
11 yourselves at the lectern. Please let us know who is with you at the panel
12 table and also in the gallery and you can do it, start with petitioner.

13 MR. NEWTON: Thank you. Good afternoon. Jared Newton from
14 Quinn Emanuel Urquhart and Sullivan for Samsung. With me is Marissa
15 Ducca, Brian Mack, and Christopher Burrell from Samsung.

16 JUDGE JEFFERSON: Thank you. Welcome. And for the patent
17 owner?

18 MR. KUSHAN: Good afternoon, Your Honors. Jeff Kushan from
19 Sidley Austin for patent owner. With me is Irene Yang and Sam Dillon. I
20 just want to note that the two of them will be dividing up the remarks today.
21 Ms. Yang will start and Mr. Dillon will cover the remaining issues. Thank
22 you very much.

23 JUDGE JEFFERSON: Thank you. Before we begin, I want to
24 remind the parties that the hearing is open to the public even though there is
25 no place left for them to sit. As you know from our trial order, each party

Case IPR2017-01471 (Patent 8,412,197 B2)

Case IPR2017-01474 (Patent 8,639,246 B2)

Case IPR2017-01475 (Patent 8,996,003 B2)

1 has 45 minutes in total to present its argument in the case. Petitioner has the
2 burden to show unpatentability of the original claims and so petitioner
3 speaks first, patent owner follows. You may reserve rebuttal issues for those
4 issues which you carry the burden.

5 For clarity of the transcript obviously please state the Slide number or
6 Exhibit number you are referring to not only for the record but for the ability
7 of Judge Horvath to follow along remotely. We will stop between -- we
8 have a second case I did not give an introduction to. We will stop between,
9 go off the record and start a new record and I'll introduce that case at that
10 time. We will try to keep the breaks short so we can hopefully end at a
11 reasonable time for the staff here.

12 Obviously, demonstratives are not evidence and since this is the last
13 day of our multiday case, everyone here seems like they know the rules and
14 how we are going to proceed so we will just get started with the petitioner
15 who can let me know how much time you are going to reserve.

16 MR. NEWTON: Good afternoon. We would like to reserve 15
17 minutes.

18 JUDGE JEFFERSON: You may begin.

19 MR. NEWTON: So today we're talking about, in the first hearing, we
20 are talking about a family of three patents, the 197 patent, the 246 patent, the
21 003 patent. These are directed to methods and apparatuses for cell
22 reselection and I'm going to refer, probably throughout the presentation, I'll
23 refer to the patents collectively as the cell reselection patents as a shorthand.
24 If there are any differences among one of the patents I'll refer to that one
25 specifically.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
