Executive summary

[SECRETARY'S NOTE: Due to a lack of time, no executive summary was produced.]

1 Opening of the meeting

Denis Fauconnier (Chairman) opened the meeting and welcomed the delegates to Sophia Antipolis.

2 Approval of the agenda

R2-001549 Proposed agenda (Chairman)

Denis Fauconnier (Chairman) proposed the agenda for the meeting.

Decision: The agenda was approved.

3 Results of the previous meeting

3.1 Minutes of the previous meeting

R2-001550 Draft minutes of WG2 meeting #14 Paris, 3 -7 July 2000 (Secretary)

Hans van der Veen (Secretary) presented the draft minutes.

Decision: The report was approved. The approved report (updated with meetings and comments received by e-mail etc.) would be available in R2-001551.

R2-001551 Approved minutes of WG2 meeting #14 Paris, 3 -7 July 2000 (Secretary)

This was the approved report of the TSG-RAN WG2 #14 meeting.

3.2 Permanent documents

No review was needed since the permanent documents had been approved by TSG-RAN.

R2-001552 TS 25.301 v3.5.0 (Secretary)

R2-001553 TS 25.302 v3.5.0 (Secretary)

R2-001554 TS 25.303 v3.4.0 (Secretary)

R2-001555 TS 25.304 v3.3.0 (Secretary)

R2-001556 TS 25.305 v3.2.0 (Secretary)

R2-001557 TS 25.321 v3.4.0 (Secretary)

R2-001558 TS 25.322 v3.3.0 (Secretary)

R2-001559 TS 25.323 v3.2.0 (Secretary)

R2-001560 TS 25.324 v3.1.0 (Secretary)

R2-001561 TS 25.331 v3.3.0 (Secretary)

R2-001562 TR 25.921 v3.1.0 (Secretary)

R2-001563 TR 25.922 v3.2.0 (Secretary)

R2-001564 TR 25.924 v1.0.0 (Secretary)

R2-001565 TR 25.925 v3.1.0 (Secretary)

R2-001566 TR 25.926 v3.1.0 (Secretary)

4 Results of other activities

4.1 Results of e-mail discussions

R2-001579 Report on e-mail discussion: RACH selection (Ericsson)

Johan Lundsjö (Ericsson) presented this report.

Discussion: The reply by Philips had not been incorporated in the appendix. The CRs submitted to this meeting on this topic reflected the conclusions of the e-mail discussion.

Decision: The report was noted. To incorporate the Philips comment a revision of the report would be provided in R2-001699.

R2-001699 Report on e-mail discussion: RACH selection (Ericsson)

This was the update of R2-001579.

R2-001580 Report on e-mail discussion: RLC timers (Philips)

Sylviane Gilly (Philips) presented this report.

Discussion: There was no conclusion on this topic. Ericsson had a proposal that would be discussed under Agenda Item 6.

Decision: The report was noted.

R2-001581 Report on e-mail discussion: RLC Mod Comparison (Silicon Automation Systems)

Atul Suresh Joshi (Silicon Automation Systems) presented this report.

Discussion: There was no conclusion on part of the issue. A CR for the other part was provided by Silicon Automation Systems.

Decision: The report was noted.

R2-001582 Report on e-mail discussion: Hybrid ARQ (Siemens)

Reinhard Köhn (Siemens) presented this report.

Discussion: The e-mail discussion was reflected in R2-001672, an update of the TR on Hybrid ARQ.

Decision: The report was noted.

R2-001703 Report on e-mail discussion: 25.304 review (Vodafone Airtouch)

Alan Law (Vodafone Airtouch) presented this report.

Discussion: The resulting internal version of 25.304 was included in the report.

Decision: The report was noted.

4.2 Summary of Ad Hoc meeting on 25.331

R2-001686 Report of Ad Hoc on 25.331, Paris, France, 16-17 August 2000 (Ad Hoc on 25.331)

Denis Fauconnier (Chairman) presented this report.

Discussion: The Ad Hoc had made good progress, but had not finished the review of the entire specification. Since many procedures were near-word-exact, it was proposed to check if those many could be reduced to a small number of procedures (keeping the messages).

Decision: The report was noted.

R2-001687 Version of 25.331 with yellow marking (Ad Hoc on 25.331)

This document was for information.

R2-001688 Commented version of 25.331 (Ad Hoc on 25.331)

This document was for information.

4.3 Report from LCS Ad Hoc meeting

R2-001719 Report of LCS Ad Hoc (LCS Ad Hoc)

Robert Beeson (Lucent Technologies) presented this report.

Discussion: There was some discussion on the work distribution between WG2 and WG3, and it was not clear to everyone what was the best way to capture information for R'00.

Decision: The report was noted. The decisions taken by the LCS Ad Hoc were endorsed.

Denis Fauconnier (Chairman) thanked Robert Beeson for chairing the Ad Hoc session and producing the report.

The documents that were handled in the LCS Ad Hoc meeting can be found in Agenda Item 6.6 (CRs for R'99), 7.1.4 (Release '00 TDD issues) and 7.1.5 (Release '00 FDD issues).

5 Reports & liaisons from other groups

5.1 TSG-RAN WGs, TSG-SA, TSG-T, TSG-CN

5.1.1 TSG-RAN WG1

R2-001717 (R1-000421, to TSG-RAN WG2) LS on Use of Compressed Mode for Seamless Hard Handover (TSG-RAN WG1)

Kaisu Iisakkila (Nokia) presented this LS.

Discussion: This LS had been postponed a few meetings ago, but had slipped through and no response had yet been given to TSG-RAN WG1. After checking offline, it appeared that WG1 did not think it was essential for Release '99.

Decision: The LS was noted.

R2-001567 (R1-000901, copy TSG-RAN WG2) Response to LS (R3) on Measurements (TSG-RAN WG1)

Johan Lundsjö (Ericsson) presented this LS.

Discussion: The change needed had already been incorporated during WG2#14.

Decision: The LS was noted.

R2-001568 (R1-000961, to TSG-RAN WG2) LS on Progress Report of the WI 'Low Chip Rate TDD, physical layer' and request for support (TSG-RAN WG1)

Armin Sitte (Siemens) presented this LS.

Discussion: The progress in WG1 was described. There was nothing to do for WG2.

Decision: The LS was noted.

R2-001569 (R1-000975, to TSG-RAN WG2) LS on Some study/work items with RAN WG1 having the primary responsibility (TSG-RAN WG1)

Ki-Ho Jung (Samsung) presented this LS.

Discussion: The request by WG1 was against the working procedures approved by TSG-RAN in June. The lesson learnt from R'99 was that if all WGs would work on the same topics in parallel (as had been done for R'99 in the past), this caused confusion, double work and even less time for each WI for which WG2 was responsible. Therefore, TSG-RAN had approved working procedures for future releases (see R2-001323 in WG2#14), which require a TR being made by the WG leading the WI before involving other WGs.

Decision: The LS was noted. Denis Fauconnier (Chairman) would draft a response in R2-001706 to remind WG1 of the working procedures.

R2-001804 (R1-001127, to TSG-RAN WG2) LS on UE capability parameter definitions (TSG-RAN WG1)

Johan Lundsjö (Ericsson) presented this LS.

Discussion: This contained a CR to 25.926, which had been agreed by TSG-RAN WG1.

Decision: The LS was noted. R2-001821, CR 013 was agreed.

R2-001796 (R1-001128, to TSG-RAN WG2) LS on Compressed mode for measurement purpose "other" (TSG-RAN WG1)

Kaisu Iisakkila (Nokia) presented this LS.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
