1.	Claim 1 Preamble: “An expandable socket for attachment to a portable media player or a portable media player case” .....	26
2.	Claim 1[a]: “a platform adapted to engage a portion of the portable media player or the portable media player case” .....	28
3.	Claim 1[b]: “a button that is spaced from and movable relative to the platform” .....	29
4.	Claim 1[c]: “a biasing element disposed between the platform and the button, the biasing element arranged to bias the button away from the platform” .....	30
5.	Claim 1[d]: “a lock configured to releasably secure the button to the platform, the lock comprising a first projection carried by the button and arranged to engage a second projection carried by the platform when the lock releasably secures the button to the platform” .....	33
6.	Claim 1[e]: “the first projection extends outward from the button in a first direction and the second projection extends outward from the platform in a second direction opposite the first direction” .....	34
7.	Claim 1[f]: “the lock comprises a recess defined by the platform or the button, the recess configured to receive the first or second projection when the lock releasably secures the button to the platform” .....	35

8.	Claim 5[a]: “The expandable socket of claim 1, further comprising a skin arranged between the platform and the button”.....	36
9.	Claim 5[b]: “the skin surrounds the biasing element”.....	37
10.	Claim 7: “The expandable socket of claim 5, wherein the skin comprises at least one folding section”.....	37
11.	Claim 8: “The expandable socket of claim 1, wherein the biasing element comprises a conical coil spring” .....	38
12.	Claim 9 Preamble: “An expandable socket for attachment to a portable media player or a portable media player case”.....	39
13.	Claim 9[a]: “a platform adapted to engage a portion of the portable media player or the portable media player case”.....	39
14.	Claim 9[b]: “a button that is spaced from and movable relative to the platform” .....	39
15.	Claim 9[c]: “a skin arranged between the platform and the button, wherein the skin comprises at least two folding sections” .....	39
16.	Claim 9[d]: “a biasing element disposed between the platform and the button, the biasing element arranged to bias the button away from the platform” .....	40
17.	Claim 9[e]: “a first projection carried by the button and arranged to selectively engage a second projection carried by the platform to releasably secure the button to the platform” ..	40
18.	Claim 9[f]: “the first projection extends outward from the button in a first direction and the second projection extends outward from the platform in a second direction opposite the first direction” .....	41
19.	Claim 10[a]: “The expandable socket of claim 9, wherein the skin is movable between a collapsed configuration and an expanded configuration” .....	41

20.	Claim 10[b]: “the at least two folding sections are configured to fold onto one another as the skin is moved from the expanded configuration to the expanded configuration” .....	42
21.	Claim 11[a]: “The expandable socket of claim 9, wherein the skin has a first end coupled to the button and a second end coupled to the platform” .....	43
22.	Claim 11[b]: “the skin having a first diameter at the first end and a second diameter at the second end” .....	44
23.	Claim 11[c]: “the second diameter being less than the first end” .....	45
24.	Claim 12: “The expandable socket of claim 9, wherein the skin surrounds the biasing element” .....	45
25.	Claim 14: “The expandable socket of claim 9, wherein the biasing element comprises a conical coil spring” .....	45
26.	Claim 15[a]: “The expandable socket of claim 9, further comprising a recess defined by the platform or the button” .....	45
27.	Claim 15[b]: “the recess configured to selectively receive the first or second projection to releasably secure the button to the platform” .....	46
B.	GROUND 2: The Barnett PCT and the Karmatz Provisional in view of the ‘031 patent render claims 6, 13, and 16 obvious under 35 U.S.C. § 103. ....	46
1.	Claim 6: “The expandable socket of claim 5, wherein the skin comprises an elastomeric material” .....	46
2.	Claim 13: “The expandable socket of claim 9, wherein the skin comprises an elastomeric material” .....	47
3.	Claim 16 Preamble: “An expandable socket for attachment to a portable media player or a portable media player case” .....	47
4.	Claim 16[a]: “a platform adapted to engage a portion of the portable media player or the portable media player case” .....	47
