## P-R-O-C-E-E-D-I-N-G-S

3	JUDGE LEE: Good afternoon, everyone. This is a consolidated
4	oral hearing for IPR 2019-01625, IPR 2019-01627, and IPR 2019-01629.
5	The Petitioner in all three proceedings is Square Inc., and the Patent
6	Owner in all three proceedings is 4361423 Canada Inc. The involved

patents are U.S. Patent 8,286,875 B2, for the 1625 proceeding, Patent 8,281,998 B2 for the 1627 proceeding, and Patent 9,269,084 B2 for the 1629 proceeding.

2:00 p.m.

I am Judge Jameson Lee, joined by Judge Robert Weinschenk and Judge Kevin Trock. Before we begin, we wish to thank you for your flexibility in conducting this hearing via video today. Given this is a departure from our normal practice, we start by clarifying a few items.

First, our primary concern is your right to be heard. If at any time during the proceeding -- during the hearing, you encounter technical difficulties that fundamentally undermine your ability to adequately represent your client, please let us know immediately, for example, by contacting the team member who provided you with connection information.

Second, for the benefit of the judges and opposing counsel, as well as the court reporter, please identify yourself when you begin your argument

and speak clearly into your microphone. Please do not speak when others, such as the judges, are speaking.

Third, we have the entire record, including demonstratives. When referring to demonstratives, papers, or exhibits, please do so clearly and explicitly by slide or paper number. Please also pause a few seconds after identifying it to provide us time to find it. This helps the presentation of an accurate transcript of the hearing.

Finally, please mute yourself when not speaking.

Please bear in mind the purpose of the oral hearing is to present your case, based on the arguments and evidence of record. You may not introduce new evidence or arguments.

Each party will have 90 minutes of total argument time for all three proceedings. Petitioner and Patent Owner may each reserve time for rebuttal. Petition will go first in its case. Thereafter, Patent Owner will argue its opposition. And if there's any rebuttal from Petitioner, we will hear it after Patent Owner's opposition. Finally, we will hear Patent Owner's rebuttal, if requested.

Each time counsel speaks, he or she may address all three proceedings. The time is not divided by proceedings.

We realize that the specification of the three involved patents are essentially the same and there are overlapping prior art references, so we are

going to assume that the representations pertain to all three patent specifications and the common prior art, unless counsel specifically tells us otherwise and gives us the reason why.

I will provide you with a five-minute warning during each opening argument and a two-minute warning during each rebuttal and sur-rebuttal.

Please also note that the arguments raised during rebuttal and surrebuttal must be in response to arguments raised by the opposing party. Neither period should be used to initiate new arguments.

I have a couple more preliminaries and that is, at the end of the hearing, will counsel please stay online just a few more minutes to talk to the court reporter, because the court reporter may have some clarification he or she needs to make with counsel. The Panel will sign off, but counsel, please stay online and see if the court reporter has any questions for you.

And, finally, Patent Owner -- we would like Patent Owner, after the hearing, to please submit another copy of the Patent Owner response in IPR 2019-01627, because the original copy that's filed has no paper numbers.

We would like to work with a copy with paper numbers, so please file another one that's exactly the same as the original, but only with paper numbers inserted. We don't want different pagination, different texting of any kind, just insert the paper numbers on the pre-existing pages. And you can title it Corrected Patent Owner Response.

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## **Real-Time Litigation Alerts**

Keep your litigation team up-to-date with **real-time** alerts and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## **Advanced Docket Research**

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## **Analytics At Your Fingertips**

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

#### **LAW FIRMS**

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

#### **FINANCIAL INSTITUTIONS**

Litigation and bankruptcy checks for companies and debtors.

## **E-DISCOVERY AND LEGAL VENDORS**

Sync your system to PACER to automate legal marketing.
