

UNITED STATES PATENT AND TRADEMARK OFFICE

BEFORE THE PATENT TRIAL AND APPEAL BOARD

IPR2020-00316

Patent 9,098,526

Patent Owner SYNKLOUD LLC's
Demonstrative Exhibits

Institution Decision

- Proposed Grounds Instituted
 - Claims 1-5, 9, 11, 12, 16, and 18-20 are alleged to be obvious over McCown and Dutta
 - Claims 6-8, 10, 13-15, 17 1-20 are alleged to be obvious over McCown, Dutta, and Coates

The '526 Patent

- Independent Claim 1 requires
 - A wireless device comprising:
 - at least one cache storage, one wireless interface, and program code configured to cause the wireless device to:
 - establish a wireless link for the wireless device access to a storage space of predefined capacity assigned exclusively to a user of the wireless device and a storage server, and
 - couple with the storage server across the wireless link to carry out a remote access operation for remote access to the assigned storage space in response to a request from the wireless device performed the operation,
 - wherein the operation for the remote access to the assigned storage space comprises storing a data object therein or retrieving a data object therefrom, including the storing of a data object including to download a file from a remote server across a network into the assigned storage space through utilizing download information for the file stored in said cache storage in response to the request from the wireless device performed the operation for downloading the file from the remote server into the assigned storage space.

The '526 Patent

- Independent Claim 11 requires
 - A non-transitory computer-readable medium comprising program code being executed by a wireless device, causes the wireless device to:
 - establish a wireless link for the wireless device access to a storage space of predefined capacity assigned exclusively by a storage server to a user of the wireless device;
 - couple with the storage server through the wireless link to carry out a requested operation for remote access to the assigned storage space in response to the user from the wireless device performed the operation;
 - wherein the operation for the remote access to the assigned storage space comprises storing a data object therein or retrieving a data object therefrom, the storing of the data object including to download a file from a remote server on a network into the assigned storage space through utilizing download information for the file stored in a cache storage of the wireless device in response to the user from the wireless device performed the operation for downloading the file from the remote server into the assigned storage space.

The '526 Patent

- None of the prior art, either alone or in combination, would have taught all the limitations of independent claims 1 or 11, the claims dependent therefrom.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
