

**IN THE UNITED STATES DISTRICT
COURT FOR THE WESTERN DISTRICT OF
TEXAS WACO DIVISION**

IGT and IGT CANADA SOLUTIONS ULC,

Plaintiff,

vs.

ZYNGA INC.,

Defendant.

Case No. 6:21-cv-00331-ADA

ZYNGA INC.'S PRELIMINARY CLAIM CONSTRUCTIONS

Pursuant to the Court's Order Governing Proceedings ("OGP") and the Scheduling Order entered on September 27, 2021, Defendant Zynga, Inc. ("Zynga") hereby sets forth the following list of preliminary claim constructions. To the extent that any term appears in a dependent claim of any of the claims identified, Zynga proposes construing the term in any dependent claims as well. Zynga reserves the right to add to or remove from the claim terms proposed for construction. Zynga further reserves the right to amend or supplement its produced constructions. Zynga's reservation of rights includes making amendments or supplementations in response to Plaintiffs' proposed claim constructions, as a result of the meet and confer process with Plaintiff, and/or as discovery continues.

By proposing a construction for a claim term, or failing to propose a construction for a claim term, Zynga in no way admits that construction of a particular claim term is required, not required, or possible. Zynga reserves its right to challenge the validity of claims under 35 U.S.C.

§ 112 (as well as on any other ground) not required to be raised during the claim construction process, including but not limited to invalidity based on enablement or written description.

To the extent that a term or proposed construction is not identified below, Zynga does not waive the right to seek constructions of any claim terms (including indefinite or previously identified terms) if it becomes apparent that claim construction is, in fact, needed or required because Zynga and Plaintiffs dispute the claim construction of any such terms. *See generally O2 Micro Int'l Ltd. v. Monolithic Power Sys., Inc.*, 467 F.3d 1355 (Fed. Cir. 2006).

Based on the information currently available, Zynga proposes the following constructions for the following terms in U.S. Patent Nos. 8,708,791 (the “’791 Patent”); 9,159,189 (the “’189 Patent”); 7,168,089 (the “’089 Patent”); 7,303,473 (the “’473 Patent”); 8,795,064 (the “’064 Patent”); and 8,266,212 (the “’212 Patent”).
