

US00654932B1

(12) **United States Patent**
McNally et al.(10) **Patent No.: US 6,549,932 B1**
(45) **Date of Patent: Apr. 15, 2003**(54) **SYSTEM, METHOD AND COMPUTER PROGRAM PRODUCT FOR DISCOVERY IN A DISTRIBUTED COMPUTING ENVIRONMENT**(75) Inventors: **Michael McNally**, Austin, TX (US);
Brian Jay Vetter, Austin, TX (US)(73) Assignee: **International Business Machines Corporation**, Armonk, NY (US)

(*) Notice: Subject to any disclaimer, the term of this patent is extended or adjusted under 35 U.S.C. 154(b) by 0 days.

A large distributed enterprise includes computing resources including a management server servicing a plurality of endpoint machines. A management infrastructure include a runtime engine is deployed on given endpoint machines. In response to a task deployment request at an administrative server, discovery agents may be launched into the computer network. When a software agent arrives at a given machine that supports the runtime engine, the agent is executed to determine whether the endpoint is a candidate for a particular task deployment.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
