

Declaration of Rachel J. Watters on Authentication of Publication

I, Rachel J. Watters, am a librarian, and the Head of Resource Sharing for the General Library System, Memorial Library, located at 728 State Street, Madison, Wisconsin, 53706. Part of my job responsibilities include oversight of Wisconsin TechSearch (“WTS”), an interlibrary loan department at the University of Wisconsin-Madison. I have worked as a librarian at the University of Wisconsin library system since 1998, starting as a graduate student employee in the Kurt F. Wendt Engineering Library and WTS, then as a librarian in Interlibrary Loan at Memorial Library. I began professional employment at WTS in 2002 and became WTS Director in 2011. In 2019, I became of Head of Resource Sharing for UW-Madison’s General Library System. I have a master’s degree in Library and Information Studies from the University of Wisconsin-Madison. Through the course of my studies and employment, I have become well informed about the operations of the University of Wisconsin library system, which follows standard library practices.

This Declaration relates to the dates of receipt and availability of the following:

Olson, H.F. (October 1967). Directional microphones. *Journal of the Audio Engineering Society*, 15(4), 420-430.

Standard operating procedures for materials at the University of Wisconsin-Madison Libraries. When an issue was received by the Library, it would be checked in, stamped with the date of receipt, added to library holdings records, and made available

Declaration of Rachel J. Watters on Authentication of Publication

to readers as soon after its arrival as possible. The procedure normally took a few days or at most 2 to 3 weeks.

Exhibit A to this Declaration is a true and accurate copy of the journal issue cover with library date stamp of *Journal of the Audio Engineering Society* (October 1967), from the University of Wisconsin-Madison Library collection. Exhibit A also includes an excerpt of pages 420 to 430 of that issue, showing the article entitled *Directional microphones* (October 1967). Based on this information, the date stamp on the journal issue cover indicates *Directional microphones* (October 1967) was received by the University of Wisconsin-Madison Libraries on November 8, 1967.

Based on the information in Exhibit A, it is clear that the volume was received by the library on or before November 8, 1967, catalogued and available to library patrons within a few days or at most 2 to 3 weeks after November 8, 1967.

Members of the interested public could locate the *Directional microphones* (October 1967) publication after it was cataloged by searching the public library catalog. The search could be done by journal title and/or subject key words. Members of the interested public could access the publication by locating it on the library's shelves.

I declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like

Declaration of Rachel J. Watters on Authentication of Publication

so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
