Counsel,

From the Board –

Based on the circumstances involved, we are inclined to extend the due date for Petitioner’s Reply and Patent Owner’s Sur-reply by one business day. With that extension, Petitioner’s filing today would be viewed as timely, and Patent Owner’s Sur-reply would be due on February 27<sup>th</sup>. If Patent Owner opposes this extension, a conference call will be scheduled with the parties to resolve the matter. Therefore, Patent Owner is instructed to respond to this email today indicating whether it opposes the proposed extension.

Thank you for the instructions. With the assistance of the PTAB P-TACTS Admin team, we were able to successfully submit the replies into P-TACTS this morning. We note that the file names were updated to remove apostrophes, as instructed by the P-TACTS Admin team, but the underlying PDFs are otherwise identical to what was sent yesterday (February 15).

As previously noted, we apologize for any inconvenience this may have caused, and are available for a call if the Board would like to discuss.

Respectfully,  
Daniel Zeilberger  
Counsel for Petitioner

Your Honors,

Petitioner has been trying to file the replies that were authorized in the email below, but is having trouble with the PTAB's P-TACTS system. We are getting an error that says "Application Systems Error. Please contact PTAB Support Team." As a result, we are attaching copies of the replies to this email and request that they be uploaded to the P-TACTS system.

We have copied counsel for the other side on this email. This email will also constitute service of these papers on them.

We apologize for any inconvenience this may cause and are available for a call should you want to have a call to discuss the issues we had with the filings.

Counsel,

From the Board –

Petitioner's request for additional briefing is granted. Under the circumstances, we find that additional briefing limited to the three issues itemized in Petitioner's email would be useful. Accordingly, in each of IPR2023-00070, IPR2023-00074, Petitioner is authorized to file a Reply to Patent Owner's Preliminary Response of no more than five pages that addresses only those issues. No new exhibits shall accompany the Reply. The Reply shall be filed by February 15, 2023. In view of this authorization, a conference call is not necessary.

Your Honors,

Petitioner writes regarding the Patent Owner Preliminary Responses ("POPRs") filed in IPR2023-00070 and IPR2023-00074 on January 25, 2023. Petitioner respectfully seeks authorization to file 5-page replies responding to the assertions made in the POPRs regarding the priority date of the challenged patents (i.e., U.S. Patent Nos. 7,541,179 and 8,058,061). Petitioner believes good cause exists for such replies because the POPRs make arguments that Petitioner could not have anticipated, including (1) misinterpreting the prosecution record and provisional applications; (2) distorting the substance of Petitioner's argument, and (3) applying an incorrect legal standard. For the sake of clarity, Petitioner notes that it also disagrees with the other arguments advanced in the POPR. However, Petitioner believes the record is otherwise sufficiently developed for purposes of institution, and thus is not seeking a reply on any other issues. Petitioner would be prepared to file the replies within 2 business days, and would not oppose corresponding sur-replies responding to any arguments raised in the replies.

Petitioner has conferred with counsel for San Rocco Therapeutics ("SRT"), who represents in the POPRs that it has authority to act as the Patent Owner on behalf of Sloan Kettering Institute for Cancer Research. SRT requested that its position be reflected in this email as follows: SRT disagrees with Petitioner's characterizations above and believes that no good cause exists. SRT believes the Board can properly interpret the prosecution record, provisional applications, and the Parties' arguments and can apply the proper legal standard. SRT also believes that arguments related to the priority date of the challenged patents were reasonably foreseeable and that any arguments thereto could and should have been addressed in the Petition. Petitioner also delayed making this ask for two weeks from the filing of the POPRs. Accordingly, SRT opposes this request.

Should the Board wish to schedule a conference call to discuss this matter, the parties are available next week on Tuesday, February

14, between 2 p.m. and 5 p.m. ET, and Thursday, February 16, between 10 a.m. and 12 p.m. ET.

Respectfully,  
Daniel Zeilberger  
Counsel for Petitioner
