| <b>Contributors</b> | <b><i>xi</i></b>   |
| <b>Preface</b>      | <b><i>xiii</i></b> |

## 1

### **The History of Peptide Chemistry**

*Theodor Wieland*

|                                     |    |
|-------------------------------------|----|
| I. Introduction                     | 1  |
| II. Early Peptide Syntheses         | 3  |
| III. A New Era in Peptide Chemistry | 12 |
| IV. Classic Peptide Syntheses       | 26 |
| V. Conclusion                       | 34 |
| References                          | 34 |

## 2

### **Amide Formation, Deprotection, and Disulfide Formation in Peptide Synthesis**

*Yoshiaki Kiso and Haruaki Yajima*

|                               |    |
|-------------------------------|----|
| I. Amide-Forming Reactions    | 40 |
| II. Deprotection              | 53 |
| III. Disulfide Bond Formation | 61 |
| Abbreviations                 | 82 |
| References                    | 84 |

## 3

### **Solid-Phase Peptide Synthesis**

*Bruce Merrifield*

|                       |    |
|-----------------------|----|
| I. Introduction       | 94 |
| II. The Solid Support | 94 |

|                                                           |     |
|-----------------------------------------------------------|-----|
| III. Handles, Linkers, and Spacers                        | 103 |
| IV. Protecting Group Strategy                             | 114 |
| V. The Coupling Reaction                                  | 127 |
| VI. Cause and Correction of Incomplete Coupling Reactions | 137 |
| VII. The Cleavage Reaction                                | 143 |
| VIII. Solid-Phase Synthesis of Peptides and Proteins      | 146 |
| Abbreviations                                             | 156 |
| References                                                | 159 |

## 4

### **$\alpha$ -Helix Formation by Peptides in Water**

*J. Martin Scholtz and Robert L. Baldwin*

|                                         |     |
|-----------------------------------------|-----|
| I. Introduction                         | 171 |
| II. Methods of Studying Helix Formation | 172 |
| III. Models for Helix–Coil Transition   | 175 |
| IV. Helix Propensities                  | 178 |
| V. Side-Chain Interactions              | 183 |
| VI. Capping Interactions                | 187 |
| VII. Protein Helices                    | 188 |
| References                              | 191 |

## 5

### **Peptide Conformation: Stability and Dynamics**

*Garland R. Marshall, Denise D. Beusen, and Gregory V. Nikiforovich*

|                                                                                                                                      |     |
|--------------------------------------------------------------------------------------------------------------------------------------|-----|
| I. Introduction                                                                                                                      | 193 |
| II. Theoretical Studies                                                                                                              | 195 |
| III. Experimental Analysis                                                                                                           | 209 |
| IV. Goal-Directed Modifications of Conformational Flexibility                                                                        | 218 |
| V. Examples of Experimental and Computational Techniques<br>Applied to the Study of Peptide Conformational Stability<br>and Dynamics | 225 |
| References                                                                                                                           | 235 |

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

## LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

## FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

## E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
