Case PGR2018-00004
Patent 9,659,472 B2

Before JUSTIN T. ARBES, STACEY G. WHITE, and
DANIEL J. GALLIGAN, *Administrative Patent Judges*.

WHITE, *Administrative Patent Judge*.

ORDER

Conduct of the Proceeding
37 C.F.R. § 42.5

Petitioner Mobile Tech, Inc. contacted the Board via email and requested a conference call to discuss briefing in regards to Patent Owner InVue Security Products Inc.'s assertion that Petitioner Mobile Tech Inc.'s identification of real parties-in-interest is incomplete. This issue has been briefed by these parties in several related cases (IPR2016-01915, IPR2017-00344, and IPR2017-00345). Petitioner requests permission to file substantially similar briefing in this proceeding. A conference call was held on April 9, 2018, before Judges White, Arbes, and Galligan.

A decision on institution in this matter is due by May 4, 2018. We have determined that the most efficient course of action is to address the need for any such briefing after an institution decision has been made. This Order should not be construed as waiving or prejudicing the parties' ability to raise arguments regarding real parties-in-interest in later briefing. The parties may contact the panel after an institution decision has been entered to discuss the briefing that may be appropriate in this matter.

It is

ORDERED that Petitioner's request for briefing on real parties-in-interest is denied *without prejudice*.
