(57) **ABSTRACT**

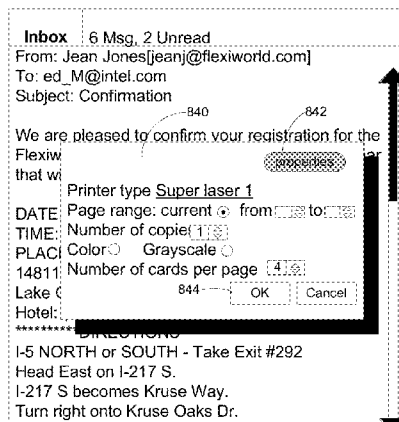

New Internet-Pad specifications that include voice activated command functions are disclosed and enabled. The Internet-Pad may include a touch sensitive screen, a digital camera, a wireless communication unit, an operating system, a graphical user interface, an e-mail application, an Internet browsing application, and an application for playing audio or video content. The Internet-Pad operating system supports an application programming interface (API). A user can install additional applications. The Internet-Pad may further include a microphone and a speaker for interacting via voice commands with the user. In some examples, the user may take a picture with the digital camera included in the Internet-Pad and transfer or synchronize the picture to a wireless output device. In other examples, the Internet-Pad may transmit an e-mail upon receiving voice commands, and the Internet-Pad also may stream or mirror digital content over the air to an output device via voice commands.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
