

EXHIBIT 7

Application of U.S. Patent No. 10,140,071 to Canon's Wireless Printers (the "Accused Products")***

* The term "Accused Products" refers to Canon's wireless printers, such as its imageRunner and imageClass wireless printer, as well as all other products made, used, sold, offered for sale and/or imported by Canon (as defined in the Complaint) or one of Canon's subsidiaries, that have the features shown in this chart, or substantially similar features.

** This claim chart is meant to be illustrative for purposes of meeting Plaintiff's pleading obligations and should not be construed as limiting or binding. Plaintiff will serve infringement contentions in this case in accord with the Local Rules and schedule entered by the Court.

Application of U.S. Patent No. 10,140,071 to the Accused Products

1. A printing device supporting wireless printing of digital content, comprising:

A printing device (e.g. Canon Wireless Printers like Canon imageCLASS LBP664Cdw Wireless Printer etc.) supports wireless printing of digital content (e.g. photos/images, documents etc.) using a wireless printing technology (e.g. Apple AirPrint, Google Cloud Print, Canon PRINT Business App, Mopria Print Service etc.).

Apple AirPrint, Google Cloud Print, Canon PRINT Business App and Mopria Print Services are described below in scenarios A, B, C and D respectively.

“Canon Color imageCLASS LBP664Cdw printer”

With print speeds up to 28 pages-per-minute, the Canon Color imageCLASS LBP664Cdw printer is designed for small work groups. It offers feature rich capabilities with high-quality imaging, minimal maintenance, and the ability to add an extra paper tray. A 5" color touchscreen delivers an intuitive user experience and can be customized by a device administrator to simplify many daily tasks. The LBP664Cdw gives your business the efficiency and support it deserves.”

Standard Interface Connection USB 2.0 x2 (Host), USB 2.0 x1 (Device) High-Speed, 10/100/1000Base-T Ethernet (Network), ***Wi-Fi 802.11b/g/n, Wi-Fi® Direct Connection***, Near Field Communication

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
