SAMSUNG ELECTRONICS CO., LTD.,

2019-1739, -1744

Appeals from the United States Patent and Trademark Office, Patent Trial and Appeal Board in Nos. IPR2017-00281 and IPR2017-01751.

ON MOTION

Before BRYSON, *Circuit Judge*.

O R D E R

Daniel L. Flamm moves unopposed to stay these companion appeals pending the Patent Trial and Appeal Board's final resolution in a related *inter partes* review.

The above-captioned appeals arise out of petitions for *inter partes* review challenging claims of U.S. Patent No. RE40,264E ("the '264 patent"). Another *inter partes* review, IPR2017-00279, also challenging the '264 patent, remains pending before the Board. Mr. Flamm states that a decision is expected soon in IPR2017-00279 and that an appeal is likely, regardless of the result.

Upon consideration thereof,

IT IS ORDERED THAT:

The motions are granted. Within 14 days of the Board's final written decision in IPR2017-00279, the parties are directed to inform this court as to how they believe these appeals should proceed.
