If you would like to request that we add or delete a design search code, please email TMDesignCodeComments@USPTO.GOV. Include your name, application serial number, a list of design search codes you would like to add or delete, and a brief justification. We will process your request within two business days. If we approve your request, the updated list of design search codes will appear in our Trademark Status and Document Retrieval (TSDR) database, accessible at <https://tsdr.uspto.gov/>, under the "Mark Information" tab.

Design search codes are numerical codes we assign to the prominent features of your mark's design. We call these features "design elements." A design element can be any component of your mark that is not a word, such as a depiction of a star or a flower. Assigning design search codes to your mark helps us more effectively search our database for marks that may conflict with yours. Design search codes have no legal significance and will not appear on the registration certificate.

For more information about design search codes, including why and how we use them and information on adding or deleting design search codes from your application, please visit our design search code webpage at <http://www.uspto.gov/DesignSearchCodes>. For a list of design search codes, see the design search code manual at <http://tess2.uspto.gov/tmdb/dscm/index.htm>.

For questions, please call 1-800-786-9199 (option 1) to speak to a Customer Service representative in the Trademark Assistance Center. Please visit <http://www.uspto.gov/TrademarkAssistance> for additional information about the Trademark Assistance Center.

This notice will be available in TSDR in one business day.
